

AMENDMENTS TO THE DRAWINGS

The replacement drawing sheets, which are presented in **Attachment A**, includes changes to Figures 2 and 5. Specifically, changes were made to the figure legends. Prior to the present replacement drawings, the triangle was incorrectly identified as representing brightness, and the rhombus was incorrectly identified as representing chromaticity (blue-yellow). These replacement sheets, which include Figures 1, 2 and 5 replace the previous sheets which also included Figures 1, 2 and 5. No new matter has been added.

Attachment A: Replacement Drawing Sheets
